(3) Creating an account
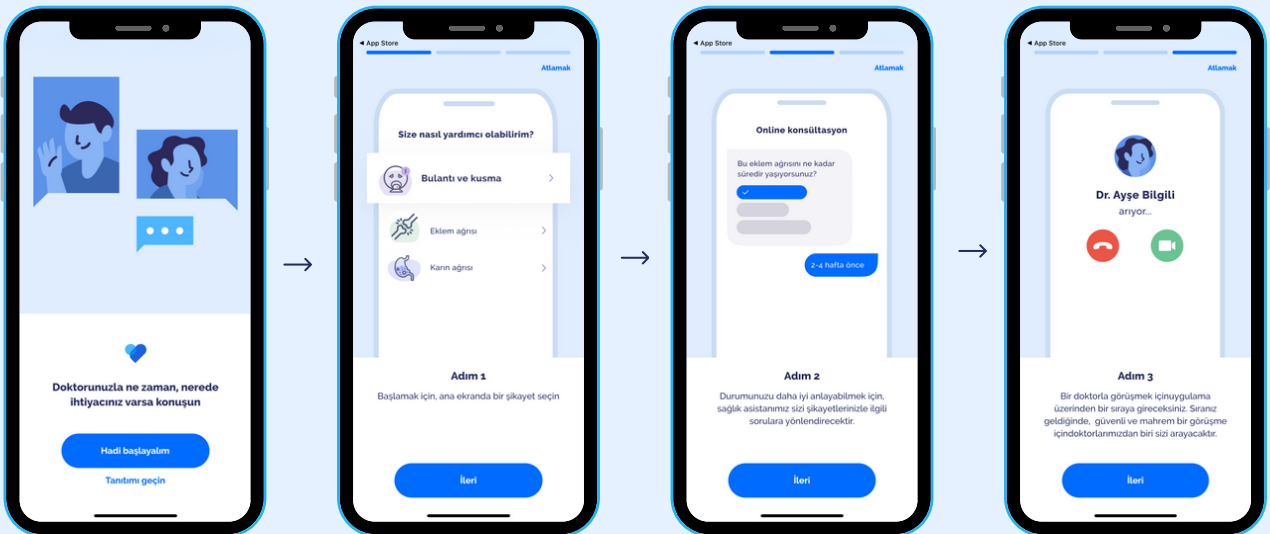

Open the DoktorNow application.

Start the account creation process by clicking the "Create Account" button.

Enter your phone number and click the "Send code" button.

In the password screen that will appear, enter the password as 123456.

Enter the verification code sent via SMS and click the "Next" button.

Create a password and enter your profile information (name, surname, gender, date of birth). Complete the account creation by clicking the "Confirm" button.
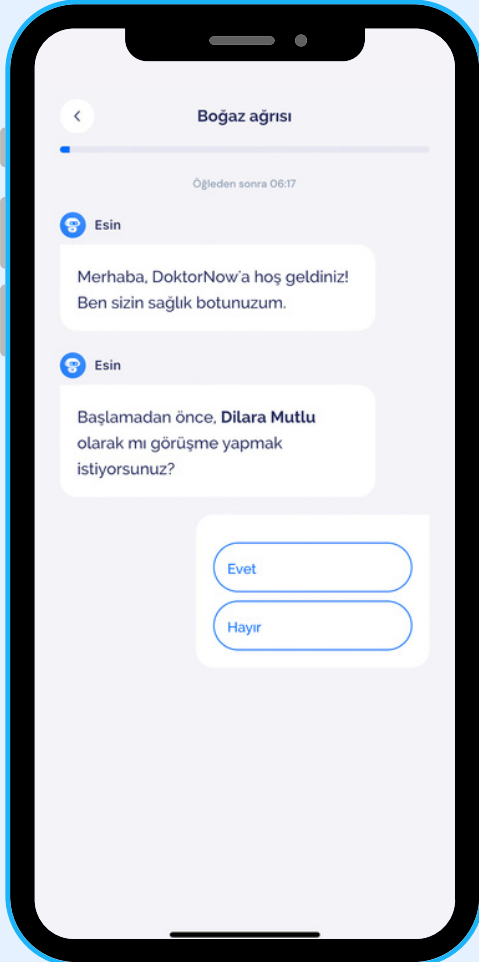

(4) Consultation with the Doctor

Share your complaints and provide the necessary information with the Digital Health Assistant in DoktorNow.

Our doctor will call you after reading the information you have given to the Digital Health Assistant.
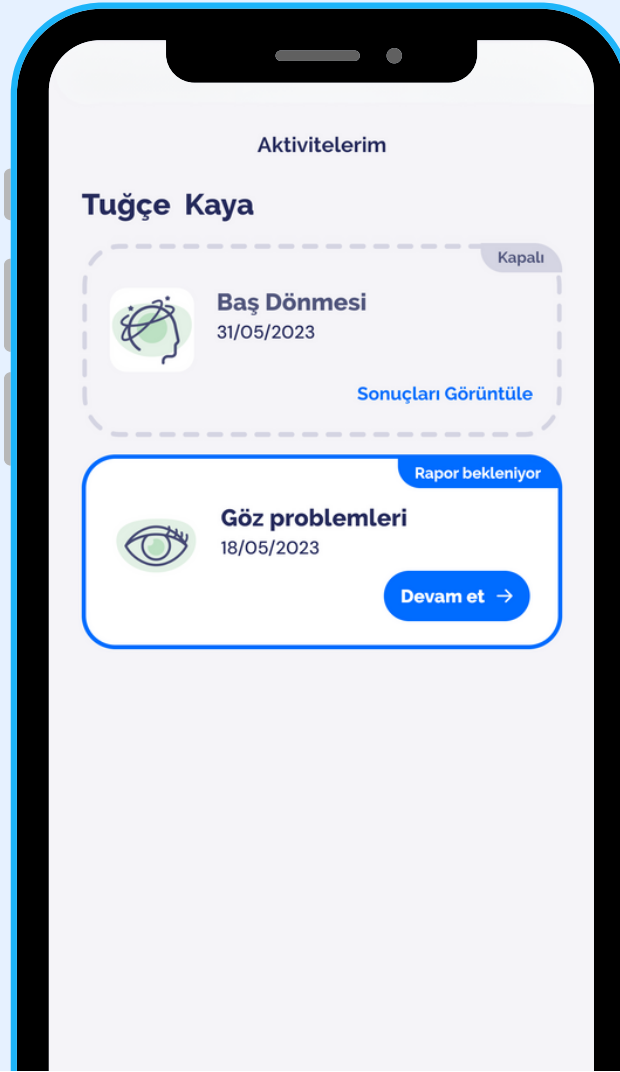

You can get diagnosis, treatment and prescription for your disease from your doctor.

5 Making an Appointment

You can schedule an appointment with our doctors via the application on the day and time you want.
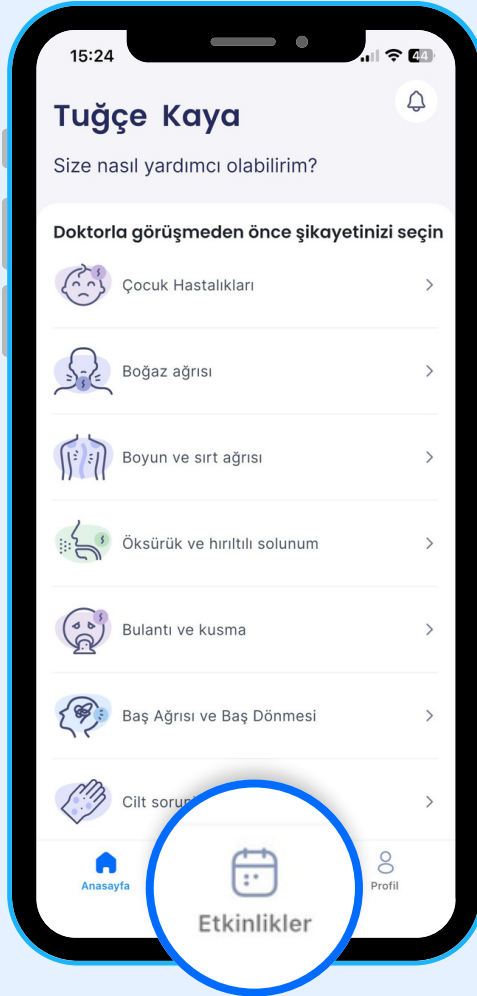

You can use the "Appointments" section to make or cancel an appointment with the doctor you want to see.
